

## AP and IB Credits

*For students entering Summer or Fall 2009*

- Students may be eligible for AP credits based on their scores on the Advanced Placement Examinations.
- Students may be eligible for IB credits based on their exam scores on the International Baccalaureate examinations.
- The updated tables and guidelines for AP and IB credits are available on the [Registrar's website](#): Advisors may use these tables to determine what the student's AP and/or IB credits will be.
- Once the credits are posted, students can view information about credits they were awarded on Hokie Spa under the Transfer Credits section.
- A substantial AP report from College Board is expected near the last week in June and the awarding of credit should show on Hokie SPA by the end of the first week in July. IB transcripts arrive in late July and then time is needed for processing (usually it takes a week).

### NOTE:

- Scores must be sent directly to Virginia Tech from the testing agency.
- Scores for AP exams taken during the sophomore or junior year of high school may not be reported.
  - Credit for these exams can be processed (Virginia Tech must be listed as the recipient) by taking the original copy and Hokie Passport to the Registrar's office either on the second day of orientation or during the fall semester.
  - If scores were not directed to the Office of the University Registrar at Virginia Tech (school code 5859), you may contact the College Board at (888) 308-0013.
- During Orientation, students should bring a copy of any AP/IB reports they receive for advising purposes.
